CIRCULAR

DONATE TO SAVE A LIFE

It may please be noted that Miss. Malkha Rouhi, a 4-month-old child is diagnosed with SMA (Spinal Muscular Atrophy) Type -1. SMA is a lethal disease and affected patients will develop muscle weakness, respiratory failure, and swallowing failure. Gene replacement therapy is currently the main available treatment for this disease, and it is given only once for life.

The total cost of this treatment is Qrs. 11,099,075/- and the parents of Miss. Malkha Rouhi have looked up hopefully to all generous donors to help them save their daughter. Their plea is registered with Qatar Charity (Patient Case No. 206863).

All parents are requested to contribute and support the medical treatment of this child generously. Qatar Charity will place donation boxes in every section of the school from 6th to 15th May 2024. Please encourage your children to drop their monetary contribution in the boxes kept at school by Qatar Charity.

Looking forward to your kind cooperation and humble contribution.

Let us act human and save a life.

HAMEEDA KADAR
Principal
